

PEER MOHAMED MK

Front End Developer | Mobile App Developer

919360572941 | permohamed8558@gmail.com | https://www.linkedin.com/in/peer-mohamed-a7649228a | TamilNadu,India

Summary

Front-End Engineer with 3 years of experience in ReactJS, React Native, Redux, JavaScript, and TypeScript. Strong expertise in RESTful API integration, state management, responsive design, and performance optimization. Experienced in building scalable, real-time, data-driven applications for web and mobile platforms

PROJECTS

SafeGuard-360

Developed SafeGuard360, a cross-platform mobile application built with React Native Expo) for safety monitoring

- Built end-to-end architecture, from setting up navigation, authentication (login/forgot password), and form validations to integrating backend APIs
- Implemented responsive UI/UX with Flexbox and reusable components for consistent experience across Android devices
- Integrated real-time video streaming and camera monitoring using third-party libraries
- Built location tracking module with geolocation APIs for accurate user/device position reporting
- Designed scheduling system to manage monitoring tasks, camera streaming, and emergency checks at specific times
- Improved an **alarm push notification feature** using **Firebase Cloud Messaging**

Real-time Monitoring Dashboard

An advanced project focused on security alarm systems

- Enhanced an intuitive real-time monitoring dashboard for alarm systems using ReactJS
- Integrated REST APIs and WebSocket for live alarm event streams and status updates
- Executed CRUD Operation for Device Configuration
- Designed reusable components for alarm lists, device controls, and event logs

GilGall

01/2023 - 09/2024

GilGall is an online learning app personalized for CBSE, ICSE & State Board students

- Created UI design of some screens based on figma
- Expanded the whole application using ReactJs in Front End
- Handled the state management for whole application by using Redux
- API Integration

Netcom school is an E-school learning web application

- Developed the admin panel using ReactJs in Front End
- API integration
- CRUD operations with authorization token
- Create students and listing data
- Ban and Unban students list

CFS Logistics Management System (Web & Mobile Application)

- Improved responsive web applications using ReactJS for job creation, gate operations, and container tracking workflows. Built cross-platform mobile application using React Native for crane operators and field staff to manage job assignments and approvals Implemented real-time job status updates and container movement tracking through REST API integration Integrated BLE (Bluetooth Low Energy) tag tracking
- container monitoring and job validation. Role-based access control (Admin, Operator, Supervisor, GateKeeper) with secure authentication Implemented push notification system for job assignment and approval updates

Skills

React	JavaScript	CSS	Tailwind CSS
React Native	GitHub	HTML	Material UI
Redux	TypeScript		

EXPERIENCE

Front End Developer | Mobile App Developer AUTOSECNEXTGENPVT LTD

03/2025 - Present | Madurai

Focused on innovative security solutions and systems integration

- Developed an intuitive real-time monitoring dashboard for alarm systems using ReactJS
- Integrated REST APIs and WebSocket for live alarm event streams and status updates
- Implemented CRUD Operation for Device Configuration
- Designed reusable components for alarm lists, device controls, and event logs
- Worked closely with the backend team to handle authorization tokens and secure data flow using JWT.
- Handled role-based access control (Admin, Operator,users) for different views and actions

Front End Developer

EZOFIS

10/2024 - 02/2025 | Tirunelveli

Focused on Digital Document Management System

- Built responsive web applications using ReactJS,HTML5,CSS3 and Javascript
- Consumed RestAPI to Implement Dynamic Features Such as Form Submissions,data listing and updates
- Implemented reusable components

Front End Developer

NetcomC omputersPvt Ltd

01/2023 - 09/2024 | Tirunelveli

Specializes in developing applications focused on education

- Created UI design of some screens based on figma
- Expanded the whole application using ReactJs in Front End
- Managed the state management for whole application by using Redux
- API Integration

EDUCATION

BSC Computer Science

Sadakathullah Appa College

06/2018 - 05/2021 | Tirunelveli
